## SENSORY PLAY

At Preschool of the Arts, sensory integration is at the heart of our educational approach. We are passionate about providing rich sensory experiences for our children, and throughout the year, we will host special Sensory Days, known as "PlayWorx."

During these events, our Morahs will set up a variety of creative sensory centers featuring activities like painting, mud play, water exploration, and more. These centers will offer opportunities for toddlers to squish, splash, squeeze, and explore, delighting in the textures and sensations around them.

Sensory play – which engages any of a child's senses – is crucial for their development. It may seem messy, but it's a powerful tool for building cognitive skills and helping children learn about their world. We encourage you to embrace these experiences as they play a significant role in your child's health and growth.

We look forward to seeing your child joyfully discover and engage through sensory exploration!
